AMERICAN OAK LEATHER CO.
 INCORPORATED
 SUCCESSORS TO

Ohio Falls Oak Leather Company,
 (Incorporated)

Tanners of
 Scoured Oak Backs, Bellies and Heads.

Mr. Phil. Emrich,
 Cincinnati, O.

Louisville, Ky.. Aug. 13, 1903.

Dear Sir:

We beg to inform you that we have been using your Lime Hooks for some time, and like them very much for handling hides with the reel. We pin the hides together, two butts and two heads, by punching holes through the hides with your special Lime Hook Awls, which makes a hole about big enough to accommodate a hook, this makes the leather better after it is finished, as it does not have a large gaping hole, such as we used to have when we used the old fashioned wooden pins, and it seems to give our customers better satisfaction. It is also done much quicker than when we used the pins, and we find that we do not have so much trouble with hooks coming out as we did with the pins. Taking it altogether we think they are a great improvement in our beam house work and recommend them to all Tanners.

Yours truly,

Ohio Falls Oak Leather Co.

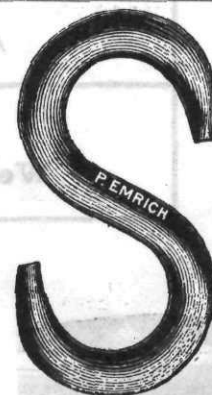

By *Wm. M. Henry*

EMRICH'S IMPROVED SAFETY LIME HOOKS.

Made of Galvanized Steel Wire. The above cut exact size. These are used on hides that are not run over a reel and to use the above style of hooks, just punch a hole with our special Lime Hook Awl, thus doing away with the large old-fashioned way of slitting hides, which is very objectionable to the cutter of leather and more desirable to the customer.

Price, per thousand\$30 00

STEEL S HOOKS.

Used for attaching Hides together either in Limes or Liquors.

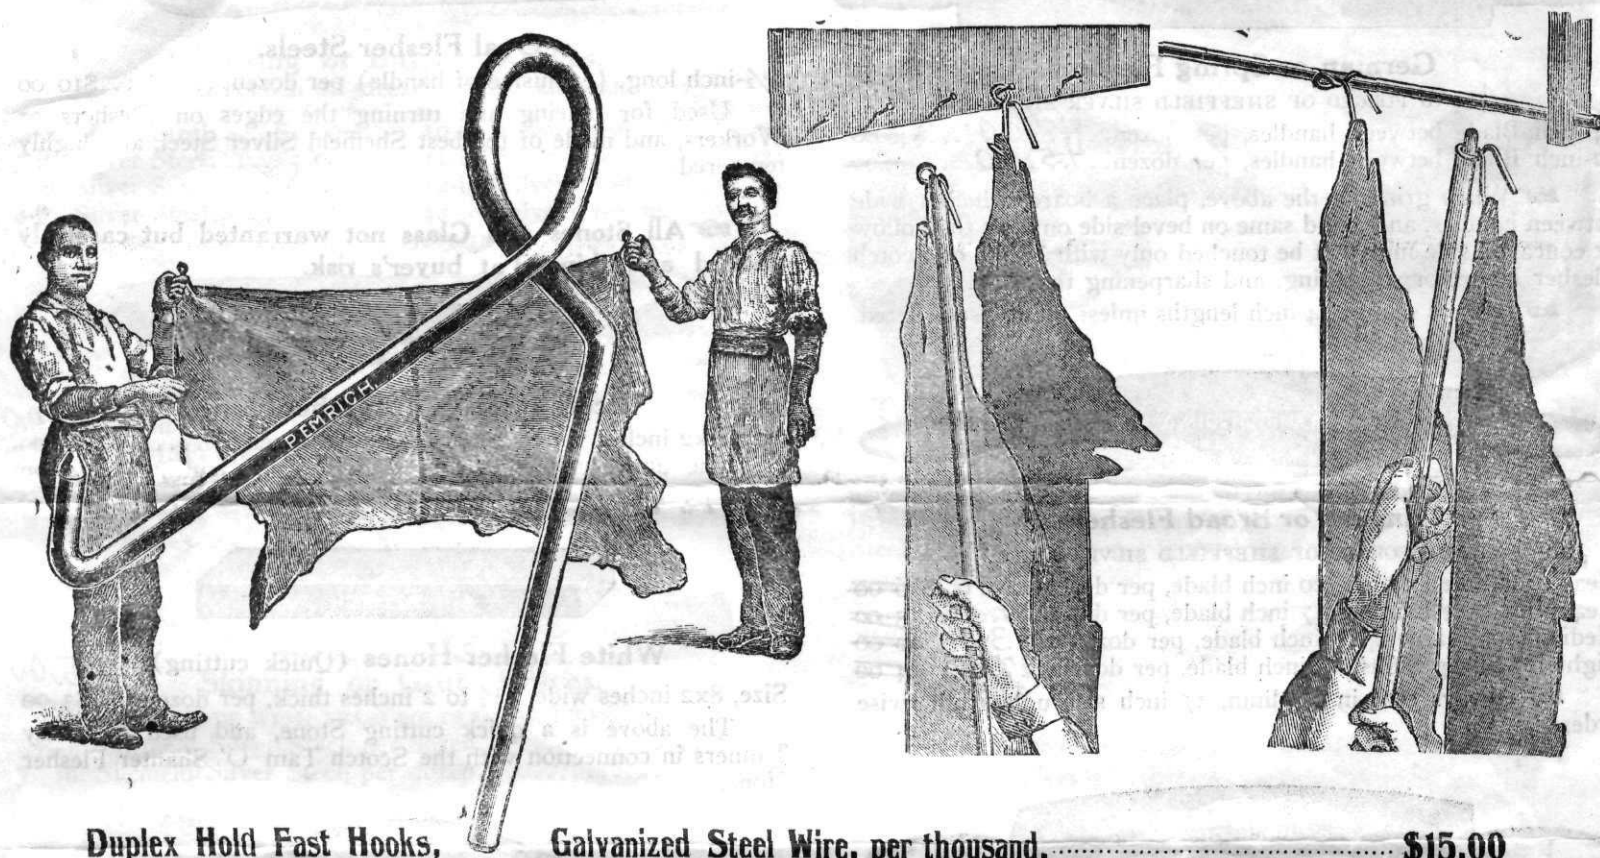

Steel S Hooks, per gross.....\$2 00

Galvanized Steel S Hooks, per gross..... 3 00

Brass S Hooks, per gross.....

Other sizes, either kind, made to order.

Tanners' and Curriers' Hold Fast, Ring and Safety Hooks and Spring Punches.

Duplex Hold Fast Hooks, Galvanized Steel Wire, per thousand, \$15.00

Use the Emrich Spring (Screw Tube) Punches, \$11.00 per dozen, for making holes in leather.

No. 1. CUT.—The above Hook represents the exact size of the Duplex Hold Fast Hook, and shows how the leather is carried.

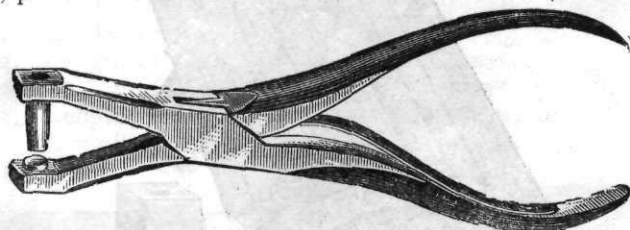

Cut No. 2 and No. 3 explains further uses of the hooks.

Exact size of Hooks.

Improved Safety Double Spring Lime & Liquor Hooks.

MADE EITHER IN GALVANIZED STEEL OR BRASS WIRE.
Galvanized Steel, per thousand\$30.00.
Brass, per thousand 48.00.

Tanners' Cast Steel Spring Punches.

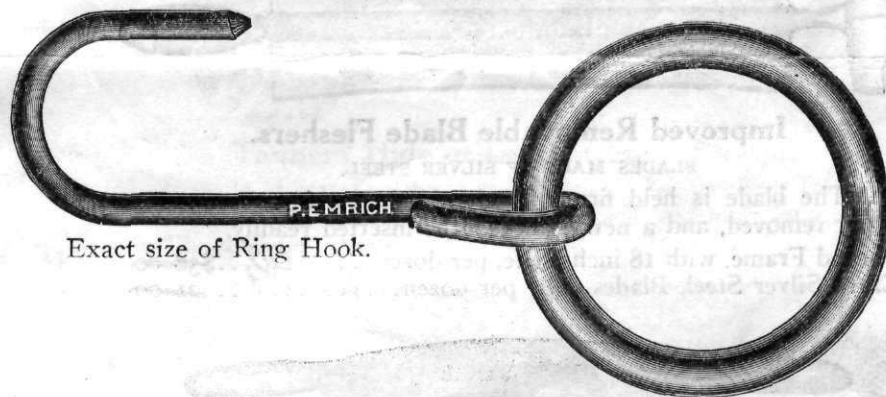

MADE WITH SCREW TUBES.

Tubes are made of best quality of Steel, threaded and made in three sizes, Large, Medium and Small, and are interchangeable, so that either size can be used in same Punch.

Punches, with tubes, per dozen.....\$11.00.
Extra Screw Tubes, any size, per dozen..... 4.50.

No. 2 CUT.—Above cut shows another way of using the Duplex Hook, which is more convenient, as it permits the placing of the leather any distance to suit the conditions of drying or available space.

No. 3 CUT.—The rod can either be ½ inch gas pipe or ⅝ inch solid round iron, supported every three feet by brackets. By simply lifting the leather a little, hook can be disengaged and the leather taken down without the aid of steps.

Exact size of Ring Hook.

Emrich's Ring Hooks.

FOR HARNESS AND SOLE LEATHER TANNERS.

The above Hooks, with Rings attached, are used by many of the Sole and Harness Leather Tanners. Some Tanners use this Hook on one end and the Duplex Hook on the other end, while others use the above Hooks for both ends of the side of leather. Rings are made of malleable iron and hooks of galvanized or coppered steel wire.

Price, per thousand\$21.00.

Tanners' Rubber Boots
Either with Rubber or
Leather Soles

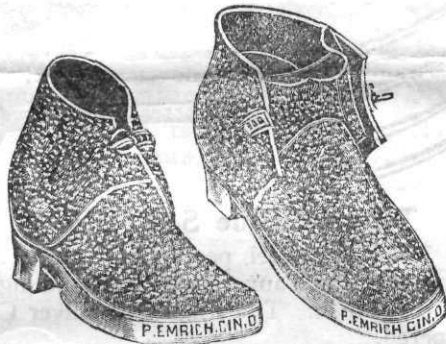

BEAM HOUSE TOOLS AND SUPPLIES.

Tanners' Wooden Beam House Shoes.

Just the thing for Tanners or persons exposed to wet or cold, or where acids or oils are used. Made in sizes from Nos. 8 to 11½ inclusive. Always order one size larger than regular shoe.

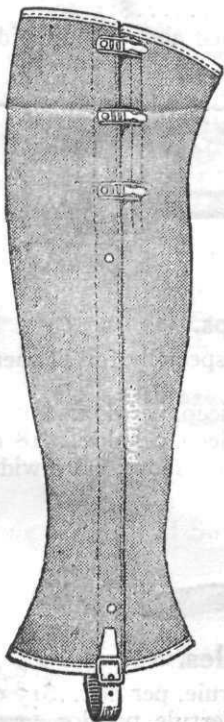

Price, per dozen pair, any size.....~~\$13.50~~ ^{12.00}
 Assorted sizes from 8 to 11½ sent unless otherwise ordered.

Tanners' Wooden Sole, Leather Top Shoes.

Bear in mind that these are not wooden Shoes, but are Shoes, the entire sole of which is made of hard but light wood, 1 inch thick, and in the shape and form like a leather sole. The Uppers are made of first quality Oil Grain, and the lining is of durable heavy Red Felt or Drill. As the Wood Sole is a non-conductor, these shoes keep the feet much dryer and warmer than any leather shoe made.

Price, per pair, any size.....~~\$3.00~~ ^{2.00}
 Unless otherwise ordered, sent in assorted sizes, from 9 to 11½.

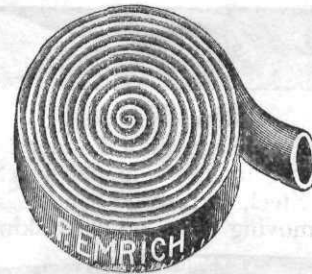

Tanners' Leggings.

Tanners Leather Leggings are made of Chrome Box Oil Grain Leather. Thigh leggings, spring to knee, three Arctic Buckles at top, expressly made for Tanners' use for Beam House and Machine Hands.

Price, per dozen pair.....\$40 00
